

Gynecologic Oncology

ONC1	Ovarian, Fallopian Tube, and Primary Peritoneal Cancers	Primary Category
ONC1.1	Operative Management	Subcategory
ONC1.1.A	Obtain a history, including relevant oncologic history, to generate a differential diagnosis and obtain and interpret laboratory evaluations, imaging studies, and other diagnostics pertinent to operative management of ovarian, fallopian tube, and primary peritoneal cancers	Task Statement
ONC1.1.B	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on surgical management of early epithelial ovarian cancer (eg, operative approach, anatomy, staging procedures)	Task Statement
ONC1.1.C	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on surgical management of advanced epithelial ovarian cancer (eg, operative approach, anatomy, omentectomy, hysterectomy, BSO)	Task Statement
ONC1.1.D	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on advanced cytoreductive procedures for ovarian, fallopian tube, and primary peritoneal cancers (eg, splenectomy, diaphragm stripping/ablation, bowel resection, low anterior resection, ostomy)	Task Statement
ONC1.1.E	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on surgery in the recurrent setting of ovarian, fallopian tube, and primary peritoneal cancers (eg, secondary cytoreduction, bowel bypass, G-tube)	Task Statement
ONC1.1.F	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on surgical management of nonepithelial ovarian cancer (eg, operative approach, anatomy, staging procedures)	Task Statement
ONC1.1.G	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on surgical management of borderline ovarian tumors (eg, operative approach, anatomy, staging procedures)	Task Statement
ONC1.1.H	Demonstrate knowledge of and provide counseling/consultation on fertility-sparing options in ovarian cancer (eg, surgical options, oncofertility)	Task Statement
ONC1.2	Nonoperative Management	Subcategory
ONC1.2.A	Demonstrate knowledge of, recognize indications for, manage, and provide counseling/consultation on adjuvant vs. neoadjuvant therapy for ovarian, fallopian tube, and primary peritoneal cancers (eg, HIPEC, cytotoxic therapy, targeted therapy, intraperitoneal chemotherapy)	Task Statement
ONC1.2.B	Demonstrate knowledge of, recognize indications for, manage, and provide counseling/consultation on maintenance therapy for ovarian, fallopian tube, and primary peritoneal cancers	Task Statement
ONC1.2.C	Demonstrate knowledge of, recognize indications for, manage, and provide counseling/consultation on recurrent disease therapy for ovarian, fallopian tube, and primary peritoneal cancers	Task Statement
ONC1.2.D	Demonstrate knowledge of genomic/genetic testing and its application to the management of ovarian cancer	Task Statement
ONC2	Uterine Cancers	Primary Category
ONC2.1	Preinvasive Disease	Subcategory
ONC2.1.A	Demonstrate knowledge of and provide counseling/consultation on the indications for and the pharmacology, mechanisms of action, and toxicities associated with medical management of hyperplasia/EIN	Task Statement
ONC2.1.B	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on surgical management of hyperplasia/EIN	Task Statement
ONC2.2	Operative Management	Subcategory
ONC2.2.A	Obtain a history, including relevant oncologic history, to generate a differential diagnosis and obtain and interpret laboratory evaluations, imaging studies, and other diagnostics pertinent to operative management of uterine cancers	Task Statement
ONC2.2.B	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on surgical management of endometrioid endometrial cancer (eg, operative approach, anatomy, staging/cytoreductive procedures)	Task Statement
ONC2.2.C	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on surgical management of serous/clear cell/carcinosarcoma (eg, operative approach, anatomy, staging/cytoreductive procedures)	Task Statement
ONC2.2.D	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on surgical management of uterine sarcomas (eg, operative approach, anatomy, staging/cytoreductive procedures)	Task Statement
ONC2.2.E	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on surgery in the recurrent setting of uterine cancers (eg, secondary cytoreduction)	Task Statement
ONC2.3	Nonoperative Management	Subcategory

ONC2.3.A	Evaluate, diagnose, manage, and provide counseling/consultation for inoperable patients with uterine cancers	Task Statement
ONC2.3.B	Evaluate, manage, and provide counseling/consultation for patients in the setting of fertility preservation with uterine cancers	Task Statement
ONC2.3.C	Demonstrate knowledge of, recognize indications for, manage, and provide counseling/consultation on systemic neoadjuvant and adjuvant treatment of uterine cancers (eg, cytotoxic therapy, immunotherapy)	Task Statement
ONC2.3.D	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on radiation in the treatment of endometrial cancer	Task Statement
ONC2.3.E	Demonstrate knowledge of, recognize indications for, manage, and provide counseling/consultation on systemic therapy for recurrent uterine disease	Task Statement
ONC2.3.F	Demonstrate knowledge of genomic/genetic testing and its application to the management of uterine cancers	Task Statement
ONC2.3.G	Demonstrate knowledge of, recognize indications for, manage, and provide counseling/consultation on systemic therapy for uterine sarcoma	Task Statement
ONC3	Cervical Cancer	Primary Category
ONC3.1	Operative Management	Subcategory
ONC3.1.A	Obtain a history, including relevant oncologic history, to generate a differential diagnosis and obtain and interpret laboratory evaluations, imaging studies, and other diagnostics pertinent to operative management of cervical cancer	Task Statement
ONC3.1.B	Evaluate, diagnose, manage, and provide counseling/consultation on preinvasive cervical disease (eg, colposcopy, conization, laser ablation, HPV vaccination)	Task Statement
ONC3.1.C	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on surgical management of early cervical cancer (eg, indications, anatomy, surgical approach, extrafascial hysterectomy, radical hysterectomy, staging)	Task Statement
ONC3.1.D	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on surgical management of locally advanced/metastatic cervical cancer (eg, lymph node cytorreduction, oophoropexy, percutaneous nephrostomy, ureteral stent)	Task Statement
ONC3.1.E	Demonstrate knowledge of, select appropriate candidates for, and provide counseling/consultation on exenterative procedures and reconstruction with cervical cancer	Task Statement
ONC3.1.F	Demonstrate knowledge of, provide counseling/consultation for, and surgically manage cervical cancer patients desiring fertility preservation (eg, conization, radical trachelectomy, fertility expectations after trachelectomy, oocyte cryopreservation)	Task Statement
ONC3.2	Nonoperative Management	Subcategory
ONC3.2.A	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on chemoradiation in the primary treatment of cervical cancer	Task Statement
ONC3.2.B	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on radiation in the adjuvant treatment of cervical cancer	Task Statement
ONC3.2.C	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on placement of brachytherapy and interstitial applicators in patients with cervical cancer	Task Statement
ONC3.2.D	Demonstrate knowledge of, recognize indications for, manage, and provide counseling/consultation on systemic therapy for advanced/recurrent cervical cancer (eg, cytotoxic chemotherapy, immunotherapy, targeted therapy)	Task Statement
ONC4	Vaginal Cancers	Primary Category
ONC4.1	Preinvasive Disease	Subcategory
ONC4.1.A	Demonstrate knowledge of, recognize indications for, manage, and provide counseling/consultation on medical options for vaginal preinvasive disease (eg, topical therapy)	Task Statement
ONC4.1.B	Demonstrate knowledge of, recognize indications for, manage, and provide counseling/consultation on surgical options for vaginal preinvasive disease (eg, laser ablation, upper vaginectomy)	Task Statement
ONC4.2	Management of Invasive Disease	Subcategory
ONC4.2.A	Obtain a history, including relevant oncologic history, to generate a differential diagnosis and obtain and interpret laboratory evaluations, imaging studies, and other diagnostics pertinent to management of vaginal invasive disease	Task Statement
ONC4.2.B	Demonstrate knowledge of, recognize indications for, manage, and provide counseling/consultation on surgical options for vaginal squamous cell cancer (eg, operative approach, anatomy, indications)	Task Statement
ONC4.2.C	Demonstrate knowledge of, recognize indications for, manage, and provide counseling/consultation on surgical options for vaginal melanoma/rare histologies of vaginal invasive disease (eg, operative approach, anatomy, indications for lymphadenectomy)	Task Statement

ONC4.2.D	Demonstrate knowledge of, recognize indications for, manage, and provide counseling/consultation on nonoperative therapy of vaginal invasive disease	Task Statement
ONC5	Vulvar Cancers	Primary Category
ONC5.1	Preinvasive Disease	Subcategory
ONC5.1.A	Demonstrate knowledge of, manage, and provide counseling/consultation on medical options for vulvar preinvasive disease (eg, topical therapy)	Task Statement
ONC5.1.B	Demonstrate knowledge of, manage, and provide counseling/consultation on surgical options for vulvar preinvasive disease (eg, laser ablation, wide local excision, skinning vulvectomy, VIN, Paget disease)	Task Statement
ONC5.2	Operative Management	Subcategory
ONC5.2.A	Obtain a history, including relevant oncologic history, to generate a differential diagnosis and obtain and interpret laboratory evaluations, imaging studies, and other diagnostics pertinent to operative management of vulvar cancers	Task Statement
ONC5.2.B	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on surgical management of vulvar squamous cell carcinoma (eg, indications, anatomy, surgical approach, staging, radical vulvectomy, abdominal-perineal resection, reconstruction)	Task Statement
ONC5.2.C	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on surgical management of vulvar melanoma (eg, operative approach, anatomy, staging)	Task Statement
ONC5.2.D	Demonstrate knowledge of and provide preoperative counseling/consultation on complications associated with vulvar cancer surgery (eg, lymphedema, lymphadenitis, wound dehiscence)	Task Statement
ONC5.2.E	Demonstrate knowledge of, recognize indications for, manage, and provide counseling/consultation on neoadjuvant treatments for locally advanced vulvar cancer (eg, chemotherapy, radiation)	Task Statement
ONC5.3	Nonoperative Management	Subcategory
ONC5.3.A	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on nonoperative primary radiation treatment of vulvar cancer	Task Statement
ONC5.3.B	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on adjuvant radiation in the treatment of vulvar cancer	Task Statement
ONC5.3.C	Demonstrate knowledge of, recognize indications for, manage, and provide counseling/consultation on systemic treatment for vulvar cancers (eg, immunotherapy, chemotherapy)	Task Statement
ONC6	Gestational Trophoblastic Disease	Primary Category
ONC6.1	Molar Pregnancy	Subcategory
ONC6.1.A	Evaluate, diagnose, manage, and provide counseling/consultation on complete and partial molar pregnancy	Task Statement
ONC6.1.B	Demonstrate knowledge of and provide counseling/consultation on surveillance, contraception, future fertility, and risk of recurrent molar pregnancy	Task Statement
ONC6.2	Invasive Mole/Metastatic Molar Disease/Recurrent Choriocarcinoma	Subcategory
ONC6.2.A	Evaluate and diagnose invasive mole/metastatic molar disease/choriocarcinoma	Task Statement
ONC6.2.B	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on surgical management of invasive mole/metastatic molar disease/choriocarcinoma	Task Statement
ONC6.2.C	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on systemic treatment and/or radiation, and manage systemic treatment for invasive mole/metastatic molar disease/recurrent choriocarcinoma	Task Statement
ONC6.3	Placental Site Trophoblastic Tumor	Subcategory
ONC6.3.A	Evaluate, diagnose, manage, and provide counseling/consultation on placental site trophoblastic tumor	Task Statement
ONC6.3.B	Demonstrate knowledge of, recognize indications, manage, and provide counseling/consultation on systemic treatment and/or radiation for placental site trophoblastic tumor	Task Statement
ONC7	Complications	Primary Category
ONC7.1	Surgical Complications	Subcategory
ONC7.1.A	Demonstrate knowledge of and provide counseling/consultation on preoperative and intraoperative strategies to reduce postoperative complications (eg, surgical site infections, VTE, ileus, postoperative nausea/vomiting, ERAS)	Task Statement
ONC7.1.B	Evaluate, diagnose, manage, and provide counseling/consultation on surgical injury to the gastrointestinal tract (eg, small bowel, large bowel, spleen, pancreas, liver, stomach)	Task Statement
ONC7.1.C	Evaluate, diagnose, manage, and provide counseling/consultation on surgical injury to the genitourinary tract (eg, ureteroneocystostomy, psoas fixation, Boari flap, Martius flap, uretero-ureterostomy)	Task Statement
ONC7.1.D	Evaluate, diagnose, manage, and provide counseling/consultation on nonobstetrical hemorrhage	Task Statement

ONC7.2	Perioperative Complications	Subcategory
ONC7.2.A	Evaluate, diagnose, manage, and provide counseling/consultation on perioperative VTE	Task Statement
ONC7.2.B	Evaluate, diagnose, manage, and provide counseling/consultation on postoperative genitourinary and gastrointestinal fistula and anastomotic leak	Task Statement
ONC7.2.C	Evaluate, diagnose, manage, and provide counseling/consultation on postoperative ileus/small bowel obstruction	Task Statement
ONC7.2.D	Evaluate, diagnose, manage, and provide counseling/consultation on postoperative surgical site infection	Task Statement
ONC7.2.E	Evaluate, diagnose, manage, and provide counseling/consultation on postoperative medical complications (eg, myocardial infarction, pneumonia, aspiration, cerebrovascular accident, diabetes)	Task Statement
ONC7.2.F	Evaluate, diagnose, manage, and provide counseling/consultation on intraoperative and postoperative nerve injury	Task Statement
ONC7.3	Complex Inpatient Care	Subcategory
ONC7.3.A	Evaluate, diagnose, manage, and provide counseling/consultation for critically ill postoperative patients (eg, hemodynamic monitoring, ventilatory support)	Task Statement
ONC7.3.B	Evaluate, diagnose, manage/co-manage, and provide counseling/consultation on oncologic emergencies related to cancer progression or therapies (eg, tumor lysis syndrome, spinal cord compression, neutropenic fever, sepsis)	Task Statement
ONC7.3.C	Demonstrate knowledge of the application of postoperative strategies, including nutritional requirements and the use of supplements, pain management, and IV fluids	Task Statement
ONC7.4	Radiation Toxicities	Subcategory
ONC7.4.A	Evaluate, diagnose, manage, and provide counseling consultation on radiation-induced enteritis/cystitis/proctitis/sexual dysfunction	Task Statement
ONC7.4.B	Evaluate, diagnose, manage, and provide counseling consultation on radiation-induced radiation necrosis/skin toxicity	Task Statement
ONC7.4.C	Evaluate, diagnose, manage, and provide counseling consultation on radiation-induced fistula	Task Statement
ONC7.5	Systemic Therapy Toxicities	Subcategory
ONC7.5.A	Evaluate, diagnose, manage, and provide counseling/consultation on toxicities associated with cytotoxic chemotherapy	Task Statement
ONC7.5.B	Evaluate, diagnose, manage, and provide counseling/consultation on toxicities associated with immunotherapy	Task Statement
ONC7.5.C	Evaluate, diagnose, manage, and provide counseling/consultation on toxicities associated with endocrine therapy	Task Statement
ONC7.5.D	Evaluate, diagnose, manage, and provide counseling/consultation on toxicities associated with targeted therapies	Task Statement
ONC7.6	Placenta Accreta Spectrum/Obstetrical Hemorrhage	Subcategory
ONC7.6.A	Demonstrate knowledge of the role of interdisciplinary management and optimization of care for placenta accreta spectrum	Task Statement
ONC7.6.B	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on surgical management of placenta accreta spectrum/obstetrical hemorrhage	Task Statement
ONC8	Post-treatment Considerations	Primary Category
ONC8.1	Survivorship and Surveillance	Subcategory
ONC8.1.A	Demonstrate knowledge of, manage, and provide counseling/consultation on long-term effects of surgical and medical cancer treatment (eg, nausea, pain, neuropathy, sexual dysfunction)	Task Statement
ONC8.1.B	Demonstrate knowledge of the development and implementation of evidence-based surveillance and survivorship plans for gynecologic cancer patients, including collaborations with other disciplines	Task Statement
ONC8.1.C	Demonstrate knowledge of, evaluate for, and provide counseling/consultation on suspected disease recurrence	Task Statement
ONC8.2	Supportive and End-of-Life Care	Subcategory
ONC8.2.A	Demonstrate knowledge of and provide counseling/consultation on advance care planning	Task Statement
ONC8.2.B	Demonstrate knowledge of and provide counseling/consultation on multidisciplinary palliative care in management of gynecologic cancer	Task Statement
ONC8.2.C	Demonstrate knowledge of and provide counseling/consultation on timing and the role of hospice and end-of-life care	Task Statement
ONC8.2.D	Demonstrate knowledge of and provide counseling/consultation on the role of palliative procedures and interventions and the management of advanced cancer-related symptoms (eg, pain, anorexia, fatigue, nausea, ascites, pleural effusion, malignant bowel obstruction)	Task Statement

ONC8.2.E	Demonstrate knowledge of and provide counseling/consultation on nutritional assessment and intervention in supportive and end-of-life care	Task Statement
ONC9	Application of Basic Science to Patient Care	Primary Category
ONC9.1	Tumor Biology/Cancer Pharmacology	Subcategory
ONC9.1.A	Demonstrate knowledge of the biologic properties of cancer cells and molecular processes involved in carcinogenesis and therapy (eg, cell kill hypothesis, cell cycle, tumor growth)	Task Statement
ONC9.1.B	Demonstrate knowledge of mechanisms of action, pharmacodynamics, pharmacokinetics, dosing, and mechanisms of drug resistance of relevant agents	Task Statement
ONC9.1.C	Demonstrate knowledge of the role of the immune system in the pathogenesis (eg, immunosuppressive pathways) and treatment of gynecologic cancers (eg, antibody-based immunotherapy, cytokine-based immunotherapy, antibody-drug conjugates, immune checkpoint inhibitors)	Task Statement
ONC9.2	Pathology	Subcategory
ONC9.2.A	Demonstrate knowledge of the role of histopathology and special testing (eg, immunohistochemistry, molecular studies) in diagnosing müllerian cancer	Task Statement
ONC9.2.B	Demonstrate knowledge of the role of molecular testing in guiding cancer treatment (eg, HER2, PD-L1, POLE, P53, MMR, FOLR1)	Task Statement
ONC9.3	Radiation Physics	Subcategory
ONC9.3.A	Demonstrate knowledge of the application of radiobiology and radiation physics to the treatment planning of gynecologic cancers	Task Statement
ONC9.3.B	Demonstrate knowledge of and provide counseling/consultation on the application of brachytherapy and interstitial therapy in the treatment of gynecologic cancers, including field planning	Task Statement
ONC9.3.C	Demonstrate knowledge of and provide counseling/consultation on tissue radiation tolerance and acute vs. late toxicities	Task Statement
ONC9.4	Genetics	Subcategory
ONC9.4.A	Obtain a comprehensive family history and provide counseling/consultation after identifying relevant genetic risk factors and indications for genetic testing	Task Statement
ONC9.4.B	Demonstrate knowledge of and provide counseling/consultation on hereditary cancer syndromes (eg, HBOC, Lynch syndrome, Cowden syndrome, Li-Fraumeni syndrome, Peutz-Jeghers syndrome)	Task Statement
ONC9.4.C	Demonstrate knowledge of and provide counseling/consultation on risk-reducing interventions for patients with genetic risk factors/hereditary cancer syndromes	Task Statement
