

Completing Practice Improvement Tasks in ABOG Portal

This content highlights various navigation elements in the Practice Improvement section of the ABOG portal. If you'd like to search for and complete your Practice Improvement activity for the year, there are two ways to get there: by clicking on the Practice Improvement graphic or by clicking on the Practice Improvement task found under Certification Tasks.

The screenshot shows the ABOG Portal My Dashboard for Jack T. Doe. The dashboard includes a 'My Dashboard' section with four progress indicators: Practice Improvement (1 activity, 0 started, 0 completed), Article Progress (0 of 30), Performance Pathway (98%), and Article Score (0%). Below this is a 'Certification Tasks' section with a list of tasks: 'Complete Practice Improvement Activity by 12/31/2020' (Pending), 'Add Extra CMEs by 12/31/2020' (Pending), and 'Complete Safety Articles by 12/31/2020' (Pending). The 'Complete Practice Improvement Activity' task is highlighted with a yellow box.

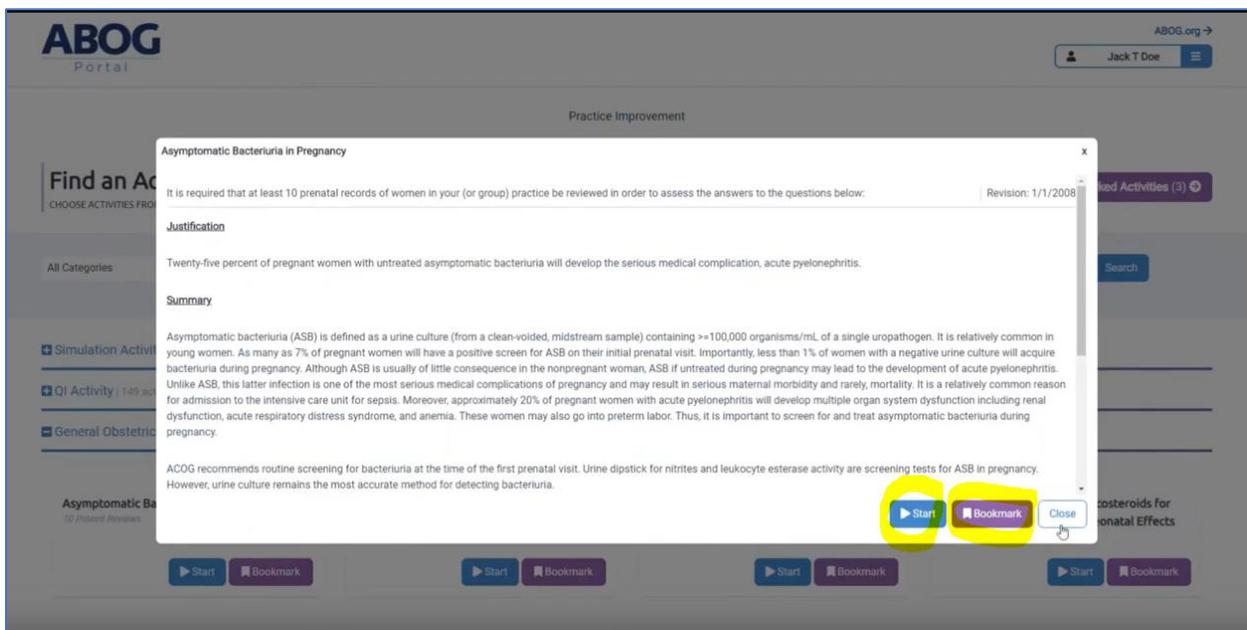

Remember, you only have to **complete one Practice Improvement activity each year.**

You can search for an activity by category or by keyword. You can also expand any of the categories listed below the filter fields to browse through activities.

The screenshot shows the ABOG Portal Find an Activity page. The page includes a search bar with the text 'Search by Keyword...' and a 'Search' button. Below the search bar is a dropdown menu for 'All Categories' with the following options: Simulation Activity, QI Activity, General Obstetrics, General Gynecology, Office Practice, Gynecologic Oncology, Maternal Fetal Medicine, Patient Safety, Communication, System-Based Practice, and Ethics, Reproductive Endocrinology and Infertility, Female Pelvic Medicine and Reconstructive Surgery, and Pediatric and Adolescent Gynecology. Below the dropdown menu are two expandable sections: 'General Gynecology | 28 activities' and 'Office Practice | 46 activities'.

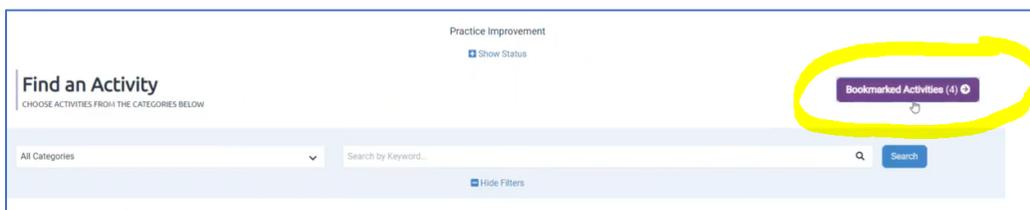

All activities listed in the categories on this page are considered **approved activities** and available for you to pursue. You may choose modules from a variety of clinical topics or you may submit participation documents for any approved external quality improvement or simulation activities.

When you expand one of the categories, you can view more information about an activity by clicking on the title. If you'd like to save an activity or several activities to read through later, just click on bookmark in the display box. If you'd rather start the activity right away, click on Start.

Once you submit your first answer for an activity, you cannot deselect it to start a different one.

If you've chosen to bookmark an activity or you have started but not completed an activity, to get to it, just click on the Bookmarked Activities button found above the filters.

In this section, you'll see any activities you've saved to view, and you can locate an activity that is "in progress". Once you've completed an activity, it will remain here under "Completed" so you can reference it later if needed. All activities you have completed in your current cycle will also be listed here.

You can remove activities from your bookmarked activities section by clicking on "Remove".

To get back to the Find Activities page, just click on the Find More Activities button in the top right corner.

To return to your portal dashboard, click on the portal logo in the top left corner of the page, or use the button in the menu in the top right corner.
